## DID YOU KNOW??

The middle layer of the tooth (dentin) is what gives teeth a yellowish hue

## TIPS FROM THERAPEUO DENTAL

### LASER TEETH WHITENING WHAT'S THAT?

- ▶ We frequently get asked the question, "doctor my teeth are looking too yellow. Can we do something about this?"
- ▶ Absolutely! The teeth are naturally coloured yellow from the inside due to the middle layer of dentin.
- ▶ This layer can only be reached by means of a special whitening gel which has to be applied professionally.
- ▶ Since we are using a laser for this process of whitening the process is only **8 minutes!** This sure as hell beats conventional whitening which takes 45 minutes.
- ▶ As the laser assists in the whitening process your teeth stay whiter for a longer period

- ▶ If this isn't enough the best part is that there is **NO POST TREATMENT SENSITIVITY.**
- ▶ To see how the process of whitening is done do check out our cool videos on our instagram page.
- Follow us:  **@therapeuodental** for information on all your dental needs

**THERAPEUO Transformation of the month**

Here's to our happy patient  
Mrs. Pritsikka Anil.

She had come to us saying that  
one of her fillings needed to be  
looked into!

Following a thorough  
comprehensive check up a few  
more fillings and a crown were  
discovered which has sorted out  
her oral health completely.

She considers herself to be a “boring and regular” personality but her smile and demeanour proved otherwise. She was an absolute pleasure to treat and underwent the procedures just as a perfect patient would.

Her google review,” Very professional, explained procedures in layman's terms and discussed all available options” and 5 star rating says volumes about her experience.

Thank you so much for giving us the opportunity to help you Prisikha. Looking forward to seeing you soon!

**QUESTIONS PLEASE!**

Is a root canal painful?

Says who? Here at Therapeuo Root Canals are one of the simplest and painless procedures you could undergo.

They are completed under local anaesthesia and done by a certified endodontist every single time!

Message us your queries:

 @therapeuodental or  9833142225 and we're gonna reply for sure
